FRIDAY, JULY 14, 1893.

Reports show the wheat crop of
the United States to be only two-
thirds of what it was last year.

There seems but little doubt that
the Federal election law will be
promptly repealed at the next ses-
sion of Congress.

The banks of the State are pre-
paring to resist the provision of the
new revenue law which authorizes
cities and counties to levy an ad-
ditional tax, over and above the
State tax, of forty-two and one-half
cents. They will carry the fight to
the United States Supreme Court,
it is said, if necessary.

According to the Louisville Lead-
er it requires only "confidence"
and not money to run this govern-
ment. All right. Now please tell
us what you folks did with the
hundreds of millions of dollars
which were in the treasury in
March, 1893, and which were not
there in March, 1892. If it wasn't
used in running the government
perhaps it was invested in "con-
fidence." If not that, then what,
please?

At Hawaii political affairs have
reached such a heated state as to
suggest some sympathy with the
mid-summer rioters. Three Eng-
lishmen have been arrested charg-
ed with conspiracy to overthrow the
Provisional Government. Their plan,
it is alleged, was to blow up the
Government buildings and to shoot
down the leading annexationists
when they should rush in the scene.
The latter have been organized and
have a list of royal life marked for
assassination in the names of Claus
Spreckels and Minister Blount.

The following announcement in
the Whitley County Advocate, if
true, will send joy to many hearts
all over this broad land of ours:
"Please Recit, a son-of-a-gun,
died at his home on Jellico creek,
this country, Wednesday night."

A Card from the Superintendent
of Public Instruction.

The following communication
has been received for publication
from Hon. E. Porter Thompson,
Superintendent of Public Instruc-
tion:

To County Superintendents:—After
consultation with the Attorney
General relative to the question as
to whether the County Superinten-
dents now in office will have to
be re-examined for certificates of
eligibility, I have to advise you as
follows:

1. He construes the language in
section 28, providing for exemption
from re-examination in case a Su-
perintendent has been continuously
in office, &c., to apply solely to those
who may obtain certificates of
eligibility under the revised school
law, and that all candidates who
mean to stand for election to the
office of County Superintendent in
November, 1893, must be examined
on the last Saturday in this month.

2. The County Board for the ex-
amination of candidates will be
constituted as heretofore, of the
County Judge, County Attorney and
a competent person se-
lected by them.

3. Those who prefer to do so can
be examined by the State Board of
Examiners at this office, on the
same day. The questions used here
will be the same as those used
by the County Board, and the same
regulations will obtain.

4. The questions will be sent
under seal and in registered pack-
ages, as prescribed by law, in about
three weeks from this date.

Monthly Crop Report.

FRANKFORT, Ky., July 8, 1893.
Some my last report I made a
short visit to the Columbian Ex-
position at Chicago. I wish every
farmer in the State could see the
great show. I was only there three
days, and spent the greater portion
of the time in the agricultural de-
partment. My aim being to find
something in grain and seed for
distribution. I found a sample of
wheat in the Australian exhibit
which I consider extra fine. But
after examining the geography of
the country as to its climate, I fear
it will not suit our State. I will go
back, not be so hurried, and try it
again.

The wheat harvest is about all in
the shock; the weather has been
all that was required to shock it in
excellent shape. If it continues
favorable, we will soon hear the
threshers at work, and we will then
know with more certainty the com-
parative yield with last year. There
are some few counties in which
complaint is made from injury from
rust; in some other counties there
is complaint of mildew. One report
is of two fields of wheat, one about
a week earlier than the other, a
fence dividing the fields. The
early field was not injured at all;
the late field badly injured.

The average condition July 1st is
90 per cent.
Corn was planted very late, but
the weather has been very favora-
ble for plowing, and although it is
very small, the color is good and
looks well, and bids fair to make a
fine crop. Some planting was not
finished until the latter part of
June. The season for our corn
crop last year was very similar to
this so far, and if we succeed this
year in making as good a crop as
last, we should be satisfied. Average
98 per cent; condition July 1,
95 per cent.

Planting is about completed.
In some few localities there are yet
some planters who have some to-
bacco to set. The bulk of planting,
however, is over. The late rains
enabled the farmers to finish set-
ting, and the work of cultivation has
fairly commenced. I have not
noticed some fields of early setting
that are looking fine. Plants have
been abundant; no complaints
have reached us, from insects or
otherwise, from any quarter. With
a fine prospect for a good crop of
corn and tobacco; meadows of all
kinds never better; all kinds of
live stock bearing good prices, sure-
ly the outlook for the farmer is not
altogether discouraging, although
he has to take a very nearly unpre-
cedented low price for his wheat.
Average, 103; condition 92 per
cent.

The cat crop is nearly ready for
the harvest. I doubt if ever
there was a better crop raised in
the State. Some few correspond-
ents place the per cent. as high as
150. The average per cent. is 105.
Not many counties report sorghum—
the growth is small as yet—
percent, 91.

Average of potatoes over an av-
erage crop, and the yield will be
very large. Average per cent. 93,
condition 101.

The amount of wool sheared as
compared with last year, 98 per
cent.

There has been a very large crop
of clover harvested; very heavy
and fine weather for saving it; the
per cent. is 103.

Some few farmers commenced
cutting their timothy meadows.
They are very fine; per cent. 98.

The condition of all grasses good;
per cent. 95.

Some correspondents report not a
sound apple to be found; the crop
will be very short. The per cent.
is 52.

The average condition of peaches
is better than apples, but the crop
will not be good. The per cent. is
65.

The average condition of grapes
is placed at 87.

REXES BYKE.
In the Libby Glass Works at the
World's Fair there is now on ex-
hibition a spun-glass dress made for
the Princess Eulalia. It was fab-
ricated from 12,000,000 feet of fine
glass threads spun and woven into
cloth in the Libby Building, the
garment being subsequently fash-
ioned by a New York modiste, who
fitted the costume to the Princess
and then sent it back to Libby for
approval.

The gown in appearance resem-
bles white satin, with a luster su-
perior to that of ordinary silk.
The skirt is made of train, and is
plain, with the exception of a
row of glass fringe about the bot-
tom, and four rows of the same ma-
terial falling from the middle of
the skirt to the hem. The waist is
cut decollete, and soft glass ruch-
ing appears about the sleeves and
neck. The dress will eventually be
sent to Spain.

BIG SANDY NEWS.

FRIDAY, JULY 11, 1908

Mrs. J. W. Jones is very sick.
 Her husband and late at Tomlin's jewelry store.
 Henry Hall will hang at Pikeville on August 11th.
 Dr. H. A. Wood, of Buffalo, N. Y., is here for a brief visit.
 Miss Thos. Northrup was visiting in Ashland a few days ago.
 Spencer is making preparations for his new fixtures and stock.
 U. S. Engineer Maj. Lockwood, of Cincinnati, was here this week.
 Capt. F. F. Freeman left yesterday with a party for the World's Fair.
 Mr. L. H. Suddith and children, of Union, W. Va., are visiting here.
 Mrs. Anna Layne, of Prestonburg, is visiting relatives in Louisville.
 Remember that my large stock of groceries must go by Sept. 1st.
 Mr. and Mrs. Frank Wallace will go to the World's Fair in a few days.
 Now is the time to lay in your fall groceries while Spencer is closing out.
 Mrs. J. T. Hackworth and family are visiting Mrs. A. J. Kees of this place.
 The new postoffice, at Carter's mill, this county, is now in operation.
 Three coal companies on Twelve Paces have failed. Only two are left in operation.
 If you miss this chance you will not get another soon. Spencer is closing out.
 Mr. and Mrs. A. P. Borders spent a week at their old home place near Richmond.
 Who wants to be Mayor under the new charter? The election will be held in November.
 Marriot, at Fuller's station, E. M. Neal to Miss M. J. Mearns, Rev. H. C. Austin officiating.
 Infield postoffice has been re-established in this county, with Ben Carter as postmaster.
 The Flying Dutchman is no longer with us. To the contrary the News extends its deepest sympathy.
 Green Week is closing a position asking the court not to change the road in the town hall.
 Let up your eyes and come along. The crowd is big that way. Goods going at low figures at Spencer's.
 Spencer's is closing when completely refitted with new fixtures and new stock of goods will be a dandy.
 No public schools in Kentucky will this year be less than five months terms. The state authorities will equalize the districts.
 What the Board of Trustees most desire in their present blind condition is a copy of the new charter. They want to know where they're at.
 A man who was killed while in the line of duty. He was a nephew of R. E. Thomas, of this place.
 After the Flying Dutchman left with several hundred dollars it was ordered that merry-go-rounds and similar affairs be sold for five dollars per day.
 We are not merely making a statement when we say the News will save you money on job printing. We are giving you facts, time and see.
 Forrest Stewart, Cary Layne and Boyd Ferguson left Wednesday for the "breaks" of Sandy on a rusticating trip of two or three weeks. Their postoffice is Prairie, Ky.
 Lawrence Circuit Court will begin on the fourth Monday in August. We hope to see as good progress in the disposition of cases as was made at the last term.
 Little Milton Wooten was bitten by a spider last Tuesday evening, and suffered terribly therefrom. He was frantically with the pain and delirious all night. He is somewhat better to-day.
 Dr. Reynolds is removing his drug store from this place to Port Gay, W. Va. His brother will have charge of it and Dr. Reynolds will make Louisville his headquarters, as heretofore.
 The steam Virginia Hotel which was sunk by ice last December near Ashland, was raised a few days ago. The hull is in good condition, and she will be docked at Ashland and furnished with new cabin.
 Seventy-one applicants for teaching certificates were examined Friday and Saturday at this place. John W. Wood, J. M. Holton, L. M. Wooten and L. A. Carter obtained their certificates. It seemed a very good day for the county.

A new report is world-famous, showing that the best treatment, subscribe and pay for it.
 Bro. McLaughlin, of the Cerebro Advancer, and Attorney Sam Crum, of Cerebro, W. Va., were welcome callers a few days ago.
 A party of C. & O. officials made a trip over the O. & N. R. a few days ago, and it is said they have laid out a considerable amount of work to be done on the line.
 Notice:—In explanation of the result of the contest for the barrel of flour to be given to the largest family present on July 11 I will say that it was A. C. The committee called on me for the price of the flour and I paid it to them in cash. D. M. SPENCER.
 We believe the News has a smaller proportion of subscribers who habitually allow their subscriptions to run behind than the average county newspaper, but there are some of that kind on its books. They will not be carried longer than next month.
 The dwelling house occupied by Jas. A. Watterson about eight miles above Louisville was burned last Sunday evening. Nearly all the household goods were saved. The house was a two-story frame, with no insurance, property of Warrick Price, valued at near a thousand dollars. The fire started from a defective flue.
 Len Welch, of this place, and Miss Belle Welch, of Fort Gay, went to Ironton Tuesday and were married. The groom is now temporarily an engineer on the government dredge boat. He is from Carrollton, Ky., and is well recommended by his associates and acquaintances of long standing. They will go to Carrollton before returning to this place.
 The popular half-rate excursions to Cincinnati every Monday via the C. & O. R. will be re-established for the summer on June 19th. Tickets from Huntington and intermediate stations will be good only on train No. 17 on Mondays and returning on train No. 18 on the following day.
 From Charleston and Huntington, tickets will be good only on Mondays on train No. 15 to Huntington and thence train No. 3, returning tickets East of Huntington will be good only on train No. 3, on the following Tuesday and Wednesday.
 Marshal Helmsworth has a force of prisoners engaged in the laudable work of cutting the abundant growth of dog fennel. As it is cut it is raked into piles and will be burned.
 We have been surprised to hear that by some who should know better this rank weed is not considered much of a nuisance—that it is a useless expenditure of money and muscle to have it cut. With their usual harmoniousness the doctors differ concerning the unsightly vegetation, but it must be apparent to a blind man that the stuff retards the drying out of low and marshy ground, thus breeding and disseminating malaria. If it had no other deleterious qualities this should condemn it. Away with it!
 The list of cripples about Louisville is unusually large just at present. Adam Stein, a stone cutter, is nursing a foot which was crushed by a heavy stone falling upon it. Wm. Shannon has a crippled head caused by a kick from a pick. Fred Shannon had the most curious case of one finger by a bicycle chain and sprocket wheel. Ralph Wilson is using crutches out of regard for a foot which was badly injured by a cut with a mallet. Flen McHenry, Jr., was generally used up by a runaway team. Golder Barrett doesn't walk so gracefully as of yore since a horse kicked him on the shin. He was unable to walk at all for several days.
 To Chicago via The Lakes.
 The greatest trip to the greatest Fair on earth and one thousand mile ride. Detroit to Chicago, in the grandest palace steamers on the lakes, picturesque scenery, returning from Chicago direct, all rail, or you can go to Chicago rail and return via the lakes and Detroit. Beds and meals included between Mackinac and Chicago. Round trip rate from Cincinnati \$21.50 (via Toledo and boat, 50 cents less).
 For further information ask any C. H. & D. R. agent, or address E. D. McCormick, G. P. & T. A. C. H. & D. R. K., Cincinnati, O.
 World's Fair Excursions.
 The C. H. & D. R. will allow stop-over at Cincinnati on all tickets reading that way.
 On all regular world's fair tickets from the South or Southern Ohio and reading via Cincinnati and the C. H. & D. R. to Chicago, a stop-over will be allowed within the life of the ticket, and passengers can secure this stop-over privilege by depositing the ticket with the Merchants and Manufacturers Association at Cincinnati.
 For rates, folders and full information regarding the World's Fair trip, including special inducements offered by the citizens of Cincinnati for stop-over in the "Queen City," address any C. H. & D. R. agent, or E. D. McCormick, G. P. & T. A. C. H. & D. R. K., Cincinnati, O.
 A Kentucky Mountaineer.
 James H. Swango, who won the first prize in the intercollegiate oratorical contest recently at Lexington, won the first prize in the National Intercollegiate oratorical contest at Chicago. There were fifteen States represented in the contest. The winner is a mountaineer boy and a son of Hon. H. H. Swango, legislator of the Land Office.

A Card.
 In answer to many friends of both political parties I respond in a public manner as possible that I can not see my way clearly enough to become a candidate for the office of County Superintendent of Public Schools. My reasons are many, but I shall mention only a few. I should, if I were a candidate, subject my claims to a Democratic convention, and I have not the time to "fix" the primaries so that I could thereby secure the nomination. I am quite sure that I should have at least one contestant for the prize, and the signs point unmistakably to a gentleman whose strong and active kinship in all parts of the county would utterly swamp a man whose blood relatives are none and all other kinds are easily counted on the fingers of one hand.
 It will be remembered that once upon a time I received the nomination for this very office. I made as good a campaign as I could, against an admittedly weak candidate and greatly to my surprise and disgust the other man was elected. Beaten by such a man I am not anxious to try it again, more particularly as the candidate upon the other side will in all probability be a gentleman, a scholar, and a man in all save his politics above reproach.
 I do not deny that I should like to be superintendent of the schools of this county for at least one term. I have been identified with the educational interests of this county in one or another capacity nearly a quarter of a century, and I think I know pretty well what is needed. Reform is wanted in many quarters, and well knowing that I could not have a second term, I should carry out some measures which, while they would be very distasteful to me, would place the cause of education on a much higher plane than the one it now occupies in Lawrence county.
 It may not be amiss to say right here what one of the reforms would be. Without intending the least reflection upon the present board of examiners, gentlemen of integrity and fairness, I think they pay too much attention to grade and not enough to "guidance." A man or woman may correctly answer every question offered by the State Board and be unfit to develop a youthful mind. And while another man or woman may, on account of timidity or unfamiliarity with the methods used, fail to attain a certain percentage, that same individual may manifest to an experienced eye such evident fitness for the position of teacher that to deny such a one a certificate would defeat the very spirit and intent of the law.
 I feel grateful to my friends for their flattering regard but under the circumstances their candidate I cannot do. G. W. WOOTEN.
 World's Fair Philanthropists.
 Messrs. Biddle Bros., wealthy Chicago gentlemen, having the interest of their city at heart, and desiring to disprove the falsity of the statement that only in boarding houses can be found moderate priced accommodations during the World's Fair remodeled and furnished at great expense one of their famous absolutely fire-proof business structures, located corner of Franklin and Jackson streets, within short walking distance of the Union Deposits, Theatres, Post Office, Board of Trade, Steam, Elevated, Cable Roads and Steamboats to the World's Fair, furnished nearly throughout 200 rooms, superb parlors, elevators, electric lights, exhaust fans to keep cool entire building, named this property The Great Western Hotel, and invite the public to take their choice of rooms for \$1.00 per day, children 50 to 12 fifty cents. Elegant restaurant and dining rooms where fine meals are served at 50 cents, or a la carte at very moderate prices.
 There would be less heard or known of extortion and imposition connected with the World's Fair were there more public spirited, fair minded men in Chicago as are the owners and proprietors of The Great Western Hotel. Our readers should write as early as possible to secure rooms, or they are being taken up rapidly.—St. Paul Daily News. (July 4).
 Just a Word, Please.
 Our first issue in September will mark the beginning of the ninth year of the News' existence. Before that time we want every subscription account settled. The notice is given in plenty of time and we respectfully ask that it be heeded. As a complete revision of our subscription lists will be made September 1st, it is especially important that this little matter be attended to by each of you. [Aug. 25].
 Mrs. J. H. HORSNIDER, 132 Pacific Ave., Santa Cruz, Cal., writes: "When a girl at school, in Reading, Ohio, I had a severe attack of brain fever. On my recovery, I found myself perfectly bald, and, for a long time, I feared I should be permanently so. Friends urged me to use Ayer's Hair Vigor, and, on doing so, my hair came out in clumps. I used two bottles of Ayer's Hair Vigor and now my hair is over a yard long and very full and heavy. I have recommended this preparation to others with like good effect."—Mrs. S. B. The Hope-Spitt Coal Company, of Twelve Pole, is reported to have failed.

Clark Stephens, of Floyd county, had \$200 stolen from him in this city one day last week. It was taken from his pocket-book while in his room at the hotel.—Cincinnati Chronicle.

A special from Incz, Ky., to the Louisville Times says that Andy Farmer shot and killed Wallace Deakins, at Nolan, W. Va., on the 3rd inst. The assassin was pursued by a force and overtaken Monday night, but he fired on the pursuers and fatally wounded Geo. Deakins and a man named Thompson, and made him escape.

The Board of Equalization raised the valuation of Floyd county taxable property 5 per cent. Judge Savage went to Frankfort and not only had the order rescinded but got a further reduction of ten per cent. Wish we had a Judge Savage in Lawrence for awhile.

The Walcott Claim Located.

From the following it would seem that the Ashland Daily News has succeeded in locating that old chestnut fraud, the Walcott land claim, which has been hunted for in vain by numbers of captured suckers: "Up near Paintsville is a tract of land known as the 'Walcott Survey' which stands a monument to the greatest land swindle ever perpetrated in the Big Sandy Valley. The land is sterile, rocky, and of a peculiar sort of clay on which it would be difficult to raise even an umbrella. Yet many an unsophisticated fellow has got his good hard money into this venture through ignorance. One day last week one of these fellows went up the valley to look over the land. He spent half a day in thoroughly examining it. He did not curse and rave, but took it philosophically. Reaching his hotel he drew up a will setting apart forever 'right title and interest in, and to the land for the purpose of building, equipping, and operating an air ship line between Paintsville and Richmond, for the sole convenience of the holders of titles in the 'Walcott Survey' their heirs, and assigns forever."

Sam B. Axler, formerly of this county, and a son-in-law of A. J. Webb, died at his home in Johnson county last week.

W. H. Eklund, an N. W. freight conductor, was killed by a passenger train near Williamson, W. Va., last Friday morning before daylight. He went out to flag the train and went to sleep on the track.

Julia S. S. Bearer of McAllisterville, Junction Co., Pa., says his wife is subject to cramps in the stomach. Last summer she tried Chamberlain's Colic, Cholera and Diarrhoea Remedy for it, and was much pleased with the speedy relief it afforded. She has since used it whenever necessary and found that it never fails. For sale by A. M. Hughes, Louisville.

Mrs. J. H. HORSNIDER, 132 Pacific Ave., Santa Cruz, Cal., writes: "When a girl at school, in Reading, Ohio, I had a severe attack of brain fever. On my recovery, I found myself perfectly bald, and, for a long time, I feared I should be permanently so. Friends urged me to use Ayer's Hair Vigor, and, on doing so, my hair came out in clumps. I used two bottles of Ayer's Hair Vigor and now my hair is over a yard long and very full and heavy. I have recommended this preparation to others with like good effect."—Mrs. S. B. Carr, 1400 Regatta St., Harrisburg, Pa.
 "I have used Ayer's Hair Vigor for several years and always obtained satisfactory results. I know it is the best preparation for the hair that is made."—C. T. Arnett, Mammoth Spring, Ark.

Mr. T. E. C. Brinley

Has the following to say about the Electropoise and how it cures after effects of La Grippe:

Office Brinley, Miles & Hardy Co. Louisville, Jan. 29, '02.

Gent:—While attending the Memphis fair some months ago, I was attacked with severe pains in my arms and legs, the effects of grippe of last winter. I met your agent there, Mr. Harbitt, who is an old friend, and he insisted that I use the Electropoise at his office, which I did, with wonderful results. In a short time the pains left me, and I concluded to rent a "Poisie." When my rental time had expired I bought it, and would not part with it for any consideration. It is certainly a wonderful instrument, and it is more wonderful as to how it does its work, yet it does.

I think it is the duty of every man to make known to the afflicted anything that will be of any benefit to them, and the Electropoise certainly will. Respectfully,

T. E. C. Brinley.

Mr. Brinley is one of the oldest and best known plow manufacturers in the country.

The diseases cured by the Electropoise are not confined to any particular class of ailments. By its use oxygen is absorbed through the pores and membranes, adds strength and vigor to the entire system, and will cure any disease where there is vitality to build on and a cure is possible.

We invite all to call or write and get full particulars.

Fourth of July, 1891, will go down into history as one of the great days of the 19th century. If a great crowd was necessary to success, then surely was success attained that day within the gates of the White City. Three hundred and twenty-five thousand people were in attendance, but the sea of faces in solid phalanx, strung all along the east front of manufacturing buildings, a distance of over one quarter of a mile, and wedged in between it and the lake to the depth of perhaps 150 feet, gives a faint idea of what a multitude. The fire works at this point were the attraction, and the sea of faces in solid phalanx, strung all along the east front of manufacturing buildings, a distance of over one quarter of a mile, and wedged in between it and the lake to the depth of perhaps 150 feet, gives a faint idea of what a multitude.

THE HOUSE, Representative Harvey Green, of Lexington, made a speech on the 4th of July, 1891, in the House of Representatives. He spoke of the great crowd that gathered at the White City, and of the sea of faces in solid phalanx, strung all along the east front of manufacturing buildings, a distance of over one quarter of a mile, and wedged in between it and the lake to the depth of perhaps 150 feet, gives a faint idea of what a multitude.

Rot after the show was over came the fun, everybody wanting to go home at the same time, and seemingly in the same conveyance, and crowded were the cars, that not a few had to resort to "Shank's mare" to reach their destination.
